Anthropic is an AI safety and research company working to build reliable, interpretable, and steerable AI systems.

This Privacy Policy explains how we collect, use, disclose, and process your personal data when you use our website and other places where Anthropic acts as a *data controller*—for example, when you interact with Claude.ai or other products as a consumer for personal use ("**Services**") or when Anthropic operates and provides our commercial customers and their end users with access to our commercial products, such as the Claude Team plan ("**Commercial Services**").

This Privacy Policy does not apply where Anthropic acts as a *data processor* and processes personal data on behalf of commercial customers using Anthropic's Commercial Services – for example, your employer has provisioned you a Claude for Work account, or you're using an app that is powered on the back-end with Claude. In those cases, the commercial customer is the controller, and you can review their policies for more information about how they handle your personal data.

Please see our [Non-User Privacy Policy](#) for information about how language models are 'trained' and how data from various sources, including where others may use our services, may be used when developing our products.

This Privacy Policy also describes your rights, and how to exercise them (the "Choices").

If you are located in Canada, Brazil, or other countries with relevant [Regional Supplemental Documents](#), please see those documents for more information.
