***Enterprise and Business can purchase credits for more access*

****ChatGPT manages a shared context window to understand your request, track the conversation, retrieve relevant information, and generate responses. The portion available for user input is smaller than the total window, as space is also used for system instructions (including tools and personality), memories (if enabled), and internal processing (reviewing information, reasoning, and response generation). The reported space for user input is an approximation and may change dynamically based on features in use and any memory content.*

FAQ

How does ChatGPT’s pricing work? —

The free version of ChatGPT is available to everyone. Paid plans (Go, Plus, Business, and Enterprise) are priced per user per month. We offer monthly plans for Go, Plus and Business and annual plans for Business and Enterprise.

Is ChatGPT free to use? +

Does OpenAI offer a ChatGPT plan for educational institutions? +

Does OpenAI offer a discount for nonprofits? +

How many users are supported on each subscription plan? +
